DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 1 and 31-49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, (1) the recited "back face" in claims 1 and 44 and their dependent claims; (2) the recited "bottom face" in claims 1 and 44 and their dependent claims; (3) the recited "front face" in claims 1 and 44 and their dependent claims; (4) the negative limitation "wherein said tilt member contact body is not a plate wrapped around said tilt member support body" in claims 39 and 45 (see, e.g., MPEP 2173.05(i)); (5) the recited "support face" in claims 40-43 and 46-49; (6) the recited "a front face" in claims 41 and 47; and (7) the recited "a top face" in claims 42 and 48 is subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Response to Arguments

2. Applicant's arguments with respect to claims 1 and 31-49 have been considered but are moot in view of the new ground(s) of rejection.
